

DUBDUBA

MUSIC

Stephen “Bud’da” Anderson

DISCOVERY

BUD'DA is one of the hottest multi-platinum producers to come from the east and amass such an impressive resume producing many Artists nationally.

Bud'da was born in Pittsburgh, Pennsylvania to a musically gifted mother and father who had their own band known far and wide for creating melodic soul and funk compilations. Bud'da got his talent honestly for sure.

Through the successful Westside Connection stint, and the mutual acquaintance of fellow Pittsburgh producer Sam Sneed, Dr. Dre wanted to feature snippets of a Bud'da-produced track in the beginning and end of the 2pac & Dr. Dre video for *California Love*, off Tupac Shakur's *All Eyez On Me*. Soon after Dr. Dre's historic departure from Death Row Records, Bud'da was once again directly recruited by Dr. Dre to co-produce the lead single, *Been There Done That*, off the Dr. Dre Presents Aftermath album.

Whether, a hard core Rapper, R&B, Rocker, or Alternative Artist, Bud'da has proven to have that incredible eclectic sound for you. Diverse in everyway, Bud'da has produced for rap heavyweights like Ice Cube, Dr. Dre, Nas, Xzibit to sultry R&B artists like Aaliyah, Shanice, Tank, Trinity, Lenny Kravitz, Summarae and Dawn Robinson to name a few.

As Composer for the hit Disney animated show, *The Proud Family*, and many other television/film scoring compositions, Bud'da has proven himself a hit maker to watch on every angle.

BUD'DA
MUSIC

Film/Television Composer

Bud'da has over twenty years of music industry experience, doing business with executives and artist at all levels, writing music pieces, which may vary in length and difficulty for television, film and video games.

Bud'da continues to studying films and scripts and working with executive producers and directors to define the nature and placement of the music so it creates the desired effect, mood and impact.

Bud'da has strong experience directing and coordination musicians to achieve optimal symphonic outputs while utilizing state of the art software applications to ensure optimal professional music score production to orchestrate and to create new arrangements.

Additionally, Bud'da has extensive experience writing and producing songs for major artist on major and independent record labels.
